Dear Holocaust Museum Watch:

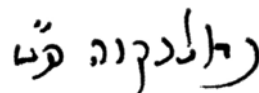

We at the ISFSP feel that there is an injustice being committed by the United States Holocaust Memorial Museum and insomuch we fully support your efforts.

The USHMM declares that it stands as, "The nation's preeminent institution for Holocaust education and remembrance," all the while overlooking the fact that Hitler and the Islamic leadership conspired together to murder the Jews in both the Balkans and the Arab countries. And while they say they serve as the world's preeminent center, "For scholarly research of the Holocaust," visitors do not see among their exhibits documents or information regarding the intimate relationship between Hitler and Amin al-Husseini, the Islamic leader (Grand Mufti) of Jerusalem.

It is without question that the United States Holocaust Memorial Museum serves the greater public good. Yet, it is our hope they will become inclusive, that they will change the subjective way they pick and choose what parts of history they present. If they refuse to do this for the sake of history, then we hope they aspire to for the sake of those murdered by the Nazi and Islamic soldiers in their attempted genocide against the Jewish people.
